

14 August, 2006

To Whom It May Concern:

DP Consulting Group Pty Ltd was first introduced to Nathan Coates Plumbing during the University of Sydney refurbishment project in 2004. DP Consulting's role was to design, document and supervise the hydraulic services for the project, on behalf of the client.

Nathan Coates Plumbing were the hydraulic sub-contractors and Lipman were the main building Contractor.

During 2005, we were contracted to Nathan Coates Plumbing to design the hydraulic services as part of a 'Design and Construct' commission at World Square Retail Podium, and Office Tower, 650 George Street, Sydney.

We have always found Nathan Coates Plumbing to be pro-active, informed of their scope, compliant with programmes, flexible in solving issues and always maintained a high level of workmanship. We found them to have a sound knowledge of the Australian Standards, local authority's requirements and their legal responsibilities.

Nathan Coates Plumbing staff were professional, approachable and well organized. Given our experience in the industry, I have no hesitation in recommending Nathan Coates Plumbing to future clients.

If you would like any further verification of the above, please do not hesitate to contact me on 9211 5400.

Regards
DP CONSULTING Group Pty Ltd
